Hello X Support Team,

I am writing as Mishaboar, a long-time contributor and supporter of the Dogecoin community, to vouch for @BacktoTheDoge, whose account was recently suspended for alleged impersonation of "Dogecoin."

First, Dogecoin is a decentralized, community-driven cryptocurrency with no single owner or official entity. No individual or organization holds exclusive rights to the Dogecoin name. For this reason, nobody can truly "impersonate" Dogecoin itself. Suspending BacktoTheDoge on the grounds of impersonation therefore misreads the open, permissionless nature of our ecosystem and makes no substantive sense.

At no point has BacktoTheDoge misrepresented their affiliation or sought to exploit the Dogecoin name for their personal gain. Their only aim has been to strengthen our shared community and spread its positive ethos. Suspending their account unjustly penalizes one of our most compassionate and constructive members, not to mention an artist that embodies with the work the best part of Dogecoin's ethos.

I respectfully request that you review this appeal and reinstate @BacktoTheDoge's account. Please let me know if you require any further information or documentation from me.

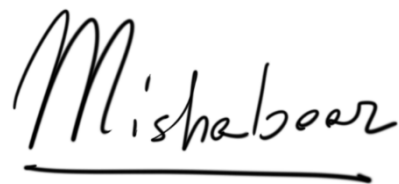

Thank you for your time and consideration.

Sincerely,

Mishaboar
